

The Minnesota Education Job Fair Association, MEJFA, has its own email list, or listserv:

mnedjobfair@d.umn.edu

What is the MEJFA Listserv?

The listserv is a mailing list of email addresses of all Minnesota Education Job Fair Association, or MEJFA, members. When a message is posted or sent to the listserv, it automatically goes to the email addresses of all MEJFA members.

Who is on the Listserv?

Everyone who is a member of the Minnesota Education Job Fair Association is on the listserv. To see the list of members, from the MCUCSA web site <<http://www.mcucsa.org>>, click on "[MN Education Job Fair Association](#)" on the left at the bottom, and then click on "[Membership Roster](#)" from the list of options.

Members

This is an unmoderated, closed listserv. Only current MEJFA members are on the listserv. Only members may post messages to the listserv and only members receive messages posted to the listserv. New members of MEJFA will be added to the listserv by the manager when notified.

How Does It Work?

To post to the listserv, type the address, <mnedjobfair@d.umn.edu>, in the "To" line of your email program. Your message will go to every member of MEJFA listed on the current roster. You may respond to a message by sending it to the entire listserv or you may respond just to the sender of the original message by choosing the appropriate option in your email program.

Purpose

The purpose of the listserv is to facilitate communication between MEJFA members. It provides an easy and convenient means of corresponding, a place for dissemination of information, and a forum for discussion for all MEJFA members.

Manager

The listserv is managed by Janet Pribyl, at the University of Minnesota Duluth Career Services <jpribyl@d.umn.edu>.

To change your email address or to be taken off the listserv

Send an email to Janet Pribyl, at <jpribyl@d.umn.edu>, requesting your email address be changed or that you be taken off the listserv. Please include the email address used by the listserv and, in the case of changing addresses, your new email address.
